The first year provides you with a broad foundation of knowledge and specialist skills for research and undertaking statistical analysis. You will take 90 credits of the core Psychology modules:

Core modules (90 credits)

| | | |
|---------|---------------------------------------|-------------|
| PSY1202 | Introduction to Biological Psychology | Term 2 |
| PSY1203 | Introduction to Social Psychology | Term 1 |
| PSY1204 | Introduction to Clinical Psychology | Term 1 |
| PSY1205 | Introduction to Statistics | Terms 1 & 2 |
| PSY1206 | Introduction to Research Methods | Term 1 |
| PSY1207 | Cognition, Emotion and Development | Term 2 |

Optional modules (30 credits)

We will automatically register you for 2 x 15 credit PSY modules listed below and they will appear on your student record when you register: -

| | | |
|---------|---|--------|
| PSY1105 | Introduction to Behaviour and Evolution | Term 1 |
| PSY1126 | Classic Studies in Psychology | Term 2 |

You can request to change the optional modules which are currently on your student record. You can take up to 30 credits from another discipline or you may decide to swap one of your current optional modules (PSY1105/PSY1126) for PSY1208 Work Experience (Psychology). To request a module change you must complete a module change form. Relevant information regarding module change can be found here

<https://www.exeter.ac.uk/students/infopoints/yourinfopointservices/modulechange/whencanichangeamodule/>. There you will find links to the module change forms.

Any changes are subject to approval and are timetable permitting. The deadline for module change forms is **Friday 7th October by 12noon**. It is preferable to register for your modules before the deadline date so you do not miss any scheduled teaching.
